

## **The Cocker Spaniel Club**

**Sunday 14<sup>th</sup> July 2024**

### **Dogs.**

Firstly I would like to thank the officers, committee and members of the club giving me the opportunity to Judge this prestigious show which is everybody's dream to judge, of which I thoroughly enjoyed and would like to thank my Stewards Damien and David for keeping the ring going smoothly throughout the day, also thanks to Dave Bennett who took on the job of photographer.

Also a big thank you to all exhibitors for showing their dogs under me and taking my placings in a sporting manner, and finally to my co-judge Mike Wildman, with whom we agreed for all decisions for the top awards and the referee Mr Peter Pavey was not required.

I would just like to point out a few criticisms which I feel need to be addressed, I have noticed that the quality of the breed has declined in the last 10 years I understand that time changes and the availability of good stud dogs is not as strong as it used to be, which is hard when you are wanting to keep a type for your own kennel and to keep the quality top drawer, hopefully this will improve. At the present time parti colour's are of stronger in depth and quality.

The Cocker Spaniel is a head breed and I felt that the heads need to be addressed a lot of long and narrow forefaces, with not much stop and thick skulls which spoils the overall picture. There was a lot of dirty dentition. Mouths overall were ok, although a couple which were not quite perfect, this is a fault and should not be found even more so in dogs as this is something that we need to ensure is perfect when looking for stud dogs, you may have a quality dog to look at but the hidden bits are the ones that can be passed down, in dogs it's the 3 T's Teeth, Testicles and Temperament. Quite a few of exhibits were overweight which spoils the overall picture when stood and on the move, I also found that the cat like feet that we expect on our cockers are few and far between, a lot of big feet with long nails spoiling the foot shape, the amount of coat that is being left on hocks and on fore chest the standard says not too profuse, presentation on some exhibits could be a tad better. The temperament overall was excellent on all exhibits.

On a final note I would just like to address my hands on examination of the dogs on both the table and the floor where some people considered excessive, I would like to point out that I have always taken my judging seriously and have endeavored to find the best dog on the day. I always try to get 'inside' a dog and imagine what it would feel like if I were handling the dog – what virtues are there to be found and what faults need to be disguised. Clever trimming of our breed can often hide structural faults and so thorough hands-on examination is I believe essential and, in my opinion, infinitely preferable to a pat on the back and a thank you. On this note after closer examination I was delighted with my final shortlist of 6 and thank the handlers/owners for being understanding of my handling of them, any of my 6 were worthy of the top awards. My top 2 pushed the other 4 just that bit more and I was delighted to award them the CC and RCC.
