

COCKER SPANIEL BREED HEALTH

BREED COUNCIL & THE COCKER SPANIEL CLUB HEALTH QUESTIONNAIRE REPORTING FORM

In order to monitor the health of our lovely breed, we would like to know of any health problems and/or illnesses from which your Cocker Spaniel is suffering/or has suffered and about any treatment whether finished or ongoing.

By identifying any ongoing or prevalent problems in our breed, we hope to be able to act quickly to prevent any condition from becoming common place by instigating interest and research into those conditions.

All responses will be treated as **CONFIDENTIAL** and all results will be presented anonymously. **No owners or dogs will be identifiable from the reports produced.** You do not have to tell us your name or the dogs name should you not wish to, however, the more information you give, the better informed we will be and full disclosure of the dogs details may help us to spot and eradicate problems more quickly.

Please email the completed form to the Breed Health Coordinator – Mrs Carol West – email: carolsheigra@gmail.com

Owners Name	
Telephone Number	
Email address	
Registered Name of dog or Pet Name
